RBR Maintenance, Inc. Has Been Designated Elite Partner Status By LoPresti Aviation

Dallas, TX, April 12, 2016- RBR Maintenance, Inc. is pleased to announce that they have been designated as an Elite Partner by LoPresti Aviation to provide its next generation lighting products to its customers. Effective immediately, RBR Maintenance, Inc. will handle sales and installation of LoPresti lighting packages for business aircraft.

LoPresti lighting products are applicable to most modern business aircraft flying today and the partnership is the latest in RBR's continued effort to expand the services available to their customers by offering a high quality lighting alternative to the OEM Landing Light System.

In addition to innovative lighting solutions, LoPresti Aviation is also well known for their manufacturing of PMA replacement parts and drag reducing, efficiency increasing modifications. They hold over 400 STCs for aircraft landing and taxi light installations.

"RBR is proud of this partnership and we look forward to being able to offer our customers LoPresti lighting products. Our current focus on Hawker, Citation, Gulfstream and King Air operators aligns perfectly with these lighting upgrades," said Scott Carter, Service Manager at RBR Maintenance, Inc. "Additionally, it allows RBR to expand our potential customer base to include Falcon and Pilatus aircraft as they are applicable airframes for these products. It's truly win-win."

This partnership will allow RBR to add LoPresti lighting modifications to their portfolio of products and service options while maintaining their focus on high quality services which include maintenance, avionics, inspections, parts and structural repair on Hawker, Citation, Gulfstream and King Air aircraft.

With over 30 years of experience in the aviation industry, RBR Maintenance, Inc., is a Certified FAR-145 Repair Station, offering complete maintenance, inspection, avionics installation and repair, structural repair and modification, as well as parts services for Hawker, Citation, Falcon and Gulfstream aircraft. Conveniently located at Dallas Love Field, RBR's facility is equipped with the latest technology, equipment and the most highly trained technicians in the business.
