West Star Aviation Announces the In-house Application of Top Flight Supplies Titanium Paint Protection System for Aircraft at ALN & GJT

January 18, 2018 -West Star Aviation is pleased to announce the company will now offer Top Flight Supplies (TFS) Titanium Paint Protection in-house at their East Alton, ALN and Grand Junction, CO facilities.

The TFS Titanium Paint Protection is a two-part process that prolongs longevity of an aircraft paint job. The paint sealant bonds with the painted surface by fusing the paint pores and can even improve fuel efficiency by providing a slicker surface reducing overall drag.

"We are pleased to offer the TFS Titanium Paint Protection to our clients. We have seen great success with this application and it really makes the paint jobs shine," said Jeremy Ficklin, Aircraft Service Manager, West Star Aviation.

This paint service is available at either of West Star's state-of-the-art-facilities in East Alton, ALN, and Grand Junction, CO. Downtime varies from 2-4 days depending on size of aircraft.

Voted #1 Preferred MRO in the 2014, 2015, 2016, and 2017 *Professional Pilot* magazine annual "Preferences Regarding Aviation Services and Equipment" (PRASE) Survey, West Star Aviation specializes in the repair and maintenance of airframes, windows, and engines, as well as major modifications, avionics installation and repair, interior refurbishment, surplus avionics sales, accessory services, paint and parts.

In addition to its facilities in East Alton, IL; Grand Junction, CO; and Chattanooga, TN, West Star Aviation runs maintenance operations at Aspen-Pitkin County Airport in Aspen, CO; Chicago Executive Airport in Chicago, IL; Centennial Airport in Denver, CO and Conroe-North Houston Regional Airport in Houston, TX. The company also provides complete FBO services for transient aircraft at its newly remodeled East Alton and Grand Junction facilities. West Star Aviation is an industry leader in technical experience and expertise while providing world-class customer services in all the organization's divisions.
