WEST STAR AVIATION'S COLUMBIA, SOUTH CAROLINA
LOCATION CONTINUES GROWTH

Columbia, SC, July 14, 2010 – West Star Aviation, Inc. is pleased to announce that its newest facility in Columbia, SC, is presently up and running, and ready to assist with a large variety of aviation needs. This facility opened to the public in April 2010, in response to an overwhelming demand for an East Coast location, and from there has continued steadily in its pattern of growth.

The Columbia (CAE) facility is available for maintenance services for a wide range of corporate aircraft. “People know what to expect when they come to a West Star location—high quality work and superior service,” said Michael Durst, Executive Vice President. “Our facility here exceeds at delivering both.”

The facility at CAE offers services to turbine aircraft below 12,500 lbs MGTOW. This list of aircraft includes Lear, Hawker, Citation, Westwind, Falcon 10/20, KingAir, and Conquest. More information concerning the specific models of aircraft serviced at this station can be located on the West Star Aviation website at www.weststaraviation.com.

Also found on the West Star website is more information about the CAE location and the services they offer. For any addition questions, or if needing to contact the facility, please call CAE Operations Manager Bill Holecek at 803.210.6733 (cell) or Michael Durst at 618.616.7082 (cell).
