Dallas Aeronautical Services Names Vince Doherty Northeast Regional Manager

Cedar Hill, TX, October 15, 2014 - Dallas Aeronautical Services (DAS) is pleased to announce that Vince Doherty has joined the company as Northeast Regional Manager. Doherty joins DAS with extensive aviation maintenance, regulatory, and compliance software experience. He is also very active in local and national aviation maintenance industry associations, including NBAA, LIBAA, and PAMA.

A U.S Army veteran, former airframe technician and private pilot, Doherty's background in business development and customer relationship management will be of immediate benefit to DAS, as the company continues to expand its overhaul and repair capabilities while providing world-class quality, customer service, and support.

"Vince joins us at a very exciting time for us at DAS. The Northeast is recognized as one of the busiest regions in the United States for corporate and private business jets, and our decision to add Vince to the DAS team, represents our commitment to our current and future customers," said Mike Manning, Vice President, DAS. "Vince's extensive knowledge and experience managing strategic sales opportunities and client relationships, coupled with his aviation background, will allow us to continue to build on our momentum, and reach the next level of success."

Doherty is centrally located on Long Island, NY. He can be reached at (631) 942-4186 or vdoherty@dasvcs.com.

Visit DAS at NBAA Oct. 21-23, 2014 at booth # 859.

DAS is an FAA Part 145 Repair Station that provides support for corporate aircraft operators through the overhaul and repair of composites, structures and assemblies. In addition to their operation in the United States, DAS also operates in South America under the name DAS Brazil. Specializing in thrust reversers, control surfaces, engine cowls, pylon and floor panels, as well as radome repair and testing, DAS provides support for Bombardier Learjet and Challenger, Gulfstream, Piaggio, Embraer, Boeing, and Hawker Beechcraft and Beechjet components. In addition, DAS has cultivated a diverse list of active partnerships within the aviation industry, including leading OEMs. Conveniently located just south of Dallas Love Field airport, DAS can support aggressive turn times while maintaining the highest quality and providing competitive prices.
