FOR IMMEDIATE RELEASE

West Star Aviation Ramps Up For Fourth Full-Service Facility at Perryville Regional Airport (KPCD)

July 12, 2018 - West Star Aviation is pleased to announce that it has acquired hangars at Perryville Regional Airport, (KPCD) in Perryville, MO, and will quickly bring capabilities online as its fourth full-service maintenance facility.

The company closed on its fourth hangar on the airport in late June, expanding their KPCD footprint to over 120,000 sq. ft. in hangar and office space. West Star's largest hangar at its Perryville location can accommodate multiple large-sized corporate aircraft.

In the coming months, West Star will be adding employees and capabilities as they continue to develop this location to its fourth full-service MRO. West Star currently occupies four hangar facilities at the airport, which includes a 28,800 sq. ft. state-of-the-art paint facility with a downdraft filtration system. This paint facility also has the capacity for large-sized corporate aircraft. Most recently, the company has promoted Kyle French to General Manager to oversee all of Perryville's operations.

"We are thrilled to continue our expansion and have Perryville as our fourth full-service location. This location will provide additional centralized maintenance options for our customers all over the world," said Jeff Curry, Vice President of Operational Efficiency, West Star Aviation.

"I am excited to play an integral part in West Star's planned expansion and look forward to bringing the West Star mix of experience and capability to our customers at KCPD," said Kyle French, General Manager, West Star Aviation.

Voted #1 Preferred MRO for five consecutive years from 2014-2018 in *Professional Pilot Magazine's* annual "Preferences Regarding Aviation Services and Equipment" (PRASE) Survey, West Star Aviation specializes in the repair and maintenance of airframes, windows, and engines, as well as major modifications, avionics installation and repair, interior refurbishment, surplus avionics sales, accessory services, paint and parts.

In addition to its facilities in East Alton, IL; Grand Junction, CO; and Chattanooga, TN, West Star Aviation runs maintenance operations at Aspen-Pitkin County Airport in Aspen, CO; Chicago Executive Airport in Chicago, IL; Centennial Airport in Denver, CO and Conroe-North Houston Regional Airport in Houston, TX. The company also provides complete FBO services for transient aircraft at its newly remodeled East Alton and Grand Junction facilities. West Star Aviation is an industry leader in technical experience and expertise while providing world-class customer services in all the organization's divisions.
